SUGGESTION BY ATTY. GEN. Mc-CAIN THAT THEY MIGHT JOIN COMPANIES IN CAMP

BOSTON, June 23—A suggestion that individual members of the Sixth regiment and other organizations not included in the call for Mexican border service, might be permitted to join detachments already in camp was contained in a felegram received by Gov. McCall foday from Adjt. Gen. Henry P. McCall foday from adjt. Gen. Henry In the telegram was in reply to a message sent by the governor in which he said the men of the Sixth destred to be ordered out for service. In his telegram Adjt. Gen. McCaln said:

"The soldierly thing to be done by those organizations not called is to accept the situation as gracefully as possible. It is suggested that privates in excess regiments could be utilized to great advantage in filling the ranks of the regiments musicred in. The call for troops was based upon the 12 division plan recognized since 1914 and any departure would throw the entire mobilization into confusion."

Leut. Gen. Nelson A. Miles, U.S.A. retired, who called on Gov. McCall today said the situation was serious and that in the event of war the president probably would call out from 200,090 to 300,000 volunteers.

JASON AND THE GOLDEN

When Jason went in search of the Golden Fieece he met with many difficulties. He had to pass the Clashing Islands which just grazed the stern of his ship. He had to yoke his plow to two fire breathing bulls, and then had to take the Golden Fleece from a tree which was guarded by a dragon that never stept. With help and patience he accomplished these feats and received his reward which was the king's daughter and a kingdom.

When Chalifoux organized their store they also met many difficulties. They had to secure goods that would please the people of Lowell and sell them at reasonable prices. But like Jason they overcame these difficulties and have a reputation more valuable than Jason's Golden Fleece.

We take pleasure in again reporting a successful sale—but this time much nearer home—namely, the plant of the Tremont Worsted mills at Methuen, Mass., yesterday afternoon, the sale starting promptly at half-past two o'clock as advertised. The property was sold as an entirety and was purchased by Mr. John B. Bolton of Methuen, Mass., for \$20,400, plus the taxes for the year 1915 amounting to \$83.25, also taxes for the current year. The attendance was all that could be desired and comprised some forty manufacturers and other interested persons, and the bidding was very active from the start. The price realized for the property was conceded by the owners to be most satisfactory.

On June 22, Mr. Conant will sell the Reliable Knitting company of Great Barrington, Mass., with appurtenant buildings and real estate.

Come Today With FIVE Dollars

Sidney Lanler, the poet, the moralist, the greatest flute player of all time, said this: "To make a home out of household, given the raw materials—to wit, wife, children, a friend or two and a house-two other things are necessary. These are a good fire and MUSIC. And inasmuch as we can do without the fire half the year, I may say MUSIC is the one

EVERY feature of this unusual sale is carried out in offering Behr Bros. playerpianos, with the single exception that the terms on the player-piano are two dollars and twenty-five cents a week instead of -- as on the piano--one dollar and tifty cents a week. Remember, 50 out of the 125 instruments in this sale are player-planes.

And come with the expectation of having one of these magnificent Behr Bros. pianos or player-pianos sent home

COME HERE TODAY. Tuck a five dollar bill in your pocket before starting. And come with the expectation of beginning right THEN AND THERE to own one of these fine Behr Bros. Pianos.

You will be surprised. We expect you to be. For you will see a plano which in design, in finish, in tone and in action will equal—if not surpass—those of your friends and neighbors which cost three hundred and fifty to four hundred dollars.

We don't care how skeptical you may be. You will see that these instruments are the biggest kind of bargains at the price (\$257), to say nothing of the many other advantages you get in the plan through which they are now being sold.

You will see that these are just the kind of pianos you have been picturing in your mind for your home. You will see at a glance that these instruments will grace any home. That they will correspond wth any modern room, it matters not how beautifully appointed.

In fact, you will be so delighted with them that you will feel irresistibly compelled to select one FOR

The Proposition Gone Over Again

In order that YOU will know this whole proposition just as well as WE know it, we will go over it again. First, we are selling seventy-five Behr Bros. pianos, for two hundred and fifty-seven dollars, which, under USUAL METHODS of selling, sell at three hundred and fifty to four hundred dollars each.

Instead of selling them on regular terms of twenty-five dollars down and ten, twelve or fifteen dollars a month, you pay but five dollars down and the remainder at the rate of only one dollar and fifty cents a week-and the piano is sent to your home at once.

A joint guarantee, signed by both Behr Bros & Co. and ourselves, is handed to you IN WRITING, which guarantees the material and workmanship of the piano for five years from the day you make your

purchase. You can GET YOUR MONEY BACK at the end of a thirty days' trial of the piano-if you wish.

At the end of the first year's use of the piano, should you wish, YOU CAN EXCHANGE IT for any other new piano we sell of equal or greater value. Tais gives you sufficient time to fully satisfy yourself that the piano is all you wish it to be.

Included without extra charge, a stool to match the piano, and free delivery within fifty miles.

American Version Of Fight

After waiting 48 hours, the border read news despatches giving the Am-

read news despatches giving the American version of the fight at Carrizal, containing Gen. Pershing's report that it was an unprovoked attack upon the Americans and then lapsed into expectant waiting.

When the despatches were read to Gen. Georgé Bell, jr., commanding the El Paso military district over the telephone, he expressed keen gralification but said that he had received no additional orders.

"I knew it," he exclaimed. "I know our men did not start that fight."

Fear For Safety Of Prisoners

Grave apprehension was manifested here for the safety of the 17 American prisoners taken in the engagement who are held by Gen. Trevino probably in Chihuahua City. It was feared that should hostlifties result, the Mexicans probably would attempt to carry out threats made by subordinite

Street car traffic across the river which was stopped last night was resumed today.

Indications that all preparations had been made in the event of a hasty departure of the remnant of the garrison was deemed expedient were to be found in the railway yards where two troop trains stood ready for in-

stant departure. On one of them 15 machine guns and three seventy-milli-metre field pieces were loaded.

festo offering to accept the services of all rebel leaders in the event of hostilities with the United States found some confirmation in the fact that today a number of Mexicans who had been exiled for political reasons crossed into Juarez.

All of these, including Marcelo Caraveo, former adherent of Orozco and Huerts, and other former minor factional leaders seemingly were in good favor with the Mexican military authorities. It was said that Gen. Caraveo would leave tonight for Chihuahua City, when Gen. Jacinto Trevino will assign him to a command in the army of the north.

OFFICIALS HOPE TO AVERT

WASHINGTON, June 23.—Hope persisted among officials here today that war against Mexico would not become necessary. Despatches from Mexico City indicated that leaders in the Car-

had been issued for transportation of 10,000 National Guardsmen to the border from central and western states as soon as they are ready for service.

On leaving the White House Secretary Baker said that there was no change in the administration policy and that information from Gen. Pershing still was awaited. He also said no new orders to regulars or militia had gone out.

Tension was not lessened by an official report to the navy department that there was no provocation by Americans for the aitack from a boat from the gunboat Annapolis at Mazatinn Sunday. Commander Kavanaugh of the Annapolis declared two American officers were seized by Mexican oustoms officers and soldlers and that firing on occupants of the hoat was started by Mexicans.

The war department was trying to hasten the mobilization of state militia today. State governors were under orders to send immediately a statement of when their troops would be ready for service. Secretary Baker issued orders last night to Major Gen. Bell at San Francisco, dommanders respectively of the central and western army departments, asking that the spectively of the central and western army departments, asking that the first five thousand militia units in each department ready for active ser-vice be dispatched to the border.

PLENTY OF GRAIN TO CARRY COUNTRY OVER UNTIL THE HARVESTS-POTATOES SHORT

BERLIN, June 23 via London.-There is plenty of grain on hand in Germany to carry the country over until the harvests, declared Adolph you Batocki, president of the food regulation board, in an address at Dusseldorf,

The potato situation was less favorable, he said, and would be especially difficult during the next fortnight, but the defict could be met by arranging for increased bread rations for physical behavers. cal laborers.

The potato situation in western Ger many has been made worse by Hol-land's prohibition upon exports due to the agitation there which, Herr won Batocki said, was probably induced by "British money."

Especial attention was being given to hard workers in the industrial secto hard workers in the industrial sec-tions, where legumes, groats and ba-con had been distributed in large quantities, continued the food director, who added that an effort would be made to secure a better distribution of

Herr von Batocki said it had been proposed to prohibit meat consump-tion for two months, but that this was impracticable, unless a better distribuion of the supply of fats could be effectuated. If that could eventually be

effectuated. If that could eventually be done the proposal could be considered. The control of breadstuffs during the coming year would be unchanged, said the speaker, except that flour of uniform grade would be introduced. An effort would be made in the autumn to regulate the whole year's potato supply. This might result in reducing the number of swine available, but that, he said, must be accepted as a part of the bargain.

In general, added Herr von Batock, an effort would be made, based on the experiences of the last two years, to

experiences of the last two years, to insure the more accurate establishing of amounts of food on hand, stricter control and the most equitable possi-

control and the most equitable possible distribution.

Experience, he says, has not justified the assertions that a census would reveal great supplies in households; nevertheless, such a census will be taken as soon as preparedness can be completed and the process will be repeated from time to time. There is no intention, however, writes the food director, of confiscating all stocks thus found. He points out that farmers living miles from stores and markets naturally must lay by larger supplies than residents of urban districts.

Some of the invited guests journeyed to the camp in the early afternoon and amused themselves by doing a little fishing, with the result that prior to the supper a fish luncheon was served. The chefs for the occasion were School Committeeman W. P. Calsse, Jr., and Omer J. Smith.

The menu consisted of deer and bear steak, fried partridges and chicken stew with all the fixings, provided by an experienced chef. The rare feast was relished by all and Mr. Lacalilade was thanked for providing such a feast.

A varied musical program followed and the remainder of the evening was spent in boating and fixing. Those present were Dr. G. E. Caisse, W. P. Caisse, Jr., J. B. Pelnault, Elie Deliste, Joseph Marin, Archie Perron, Len Crew, Z. A. Normandin, Commissioner Morse, Wilfrid Achlo, F. N. FEATURE OF THE BARNUM & BAILEY CIRCUS PLAYING HERE TODAY—GRAND PARADE THIS FORENOON

Barnum & Bailey's circus was a covering 20 acres and representing an little late in arriving in Lowell this morning. There were other things that 'went to interfere with the parade and just for that it, too, was a little late. It should have arrived when the dawn's left hand was in the sky, as our old friend Omar would say, but the day was a bit advanced before the greatest show on earth rolled in from Fitchburg. But, the fact that the circus was late in arriving and that the parade was a little late didn't detract a particle from the greatness of it. The parade was a corker and those who attended the performance this afternoon were a unit in declaring it the best show ever seen in Lowell.

It required four trains to bring the circus in, carrying, in all, 89 private cars and stored away in all of the spaces of this vast caravan were wild animals, domestic animals, canvas, flags, sawdust, costumes, kitchens and all the other things that go to make up a cily of white tops and spangles

A QUARTER CENTURY AGO

Tomorrow will be St. John's day, the patronal feast of the French of Canada, and the feast will be observed in Lowell on Sunday, an elaborate program having been prepared. Never in the history of the city, perhaps, was St. John's day so generally observed as it was quarter of a century ago, when one of the largest and most imagnificent street parades ever held by the French of Lowell, took place as one of the features of the celebration. Owing to the difficulty in getting up a big parade when the feast fell on a working day, it was decided long ago to hold future parades only once in 10 years but this year, the feast falling on Saturday, it was decided to have the observance on Sunday.

day, it was decided to have the observance on Sunday.

The old Sun devoted much space to
its report of the St. John's day observance of quarter of a century ago,
together with a lengthy editorial on
the lessons of the observance. In connection with its report it had the
following: "Never perhaps in the history of this city has any particular
section of our cityens made a finer
display in a sireet parade than did section of our citizens made a finer display in a street parade than did our French-Canadian cltizens in celebrating St. John's day. The magnificent proportions of the procession were astounding, while the floats representing noteworthy historical events were like the tableaux of a large theatre. Such an array of horsemen in rich regalla and men on foot, all twearing the distinctive insignia of their respective societies, such a variety of features, of fine banners and decorations has rarely been seen on the streets of Lowell on any former occasion, and all this was more surprising because it was unexpected.

"The first part of the celebration was the solemn high mass at St. Joseph's church, at which Rev. Fr. Amyot, O.M.I., was the celebrant, assisted by Rev. Frs. Feat and Forgel, as deacon and sub-deacon respectively. The choir sang Haydn's third mass, Mr. Marcius Delisle, director and Mr. Edward Vincellette, organist. Rev. Fr. Lavoie, O.M.I., preached the sermon in English. He counselled sobrlety and prudence in the exercises of the day and expressed the hope that the French people would always maintain a due regard for one another, and that they will cultivate the social and domestic virtues and always prove faithful and law-abiding citizens of the republic. The mayor and city council were present by invitation. ent by invitation

NEW YORK, June 23.—The Federal Sugar Refining company recently got an order from a shipper for a cargo of sugar for the Mediterranean, and yesterday the cargo, in a lighter, was discharged on Pler 29. Union stores, Brooklyn, for transportation to Italy by the Anchor Liner Italia.

There have been fires aboard several sugar laden steamships in the last several months and the agents of the Anchor line paused when they got at the carrying contract. Also they got a the tree in light he explosives in one of the many hags of sugar, so they asked the sugar folk if they were sures that all the bags contained sugar ontily.

that all the bags contained sugar only.

The natural answer of the sugar folk was that they did not ship anything except sugar. That was not enough to satisfy the Anchor line agents, who have some canniness, so they notified the sugar folk that the sugar bags would not be put aboard the Italia, due at this port in a day or so, until every bag had been examined, even down to the spoonful, for dynamite and things.

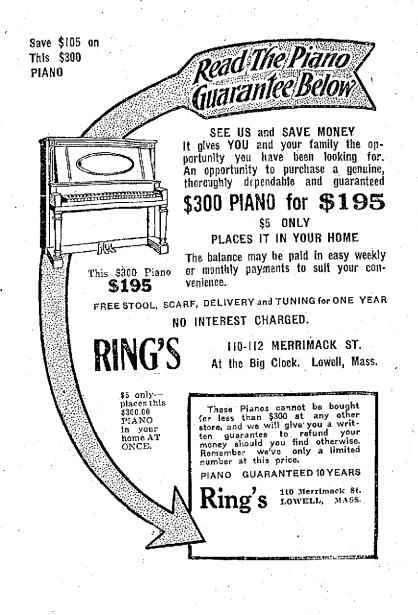

Superintendent Glover, who attends to the leading of freight for the Mediterranean service of the Anchor line, said lust night that all the sugar bags would be turned inside out and bombs found, if any were there, before the sugar would be put aboard the Italia.

German Citizens in Mexico are being treated with great consideration; their property not being molested. Some Americans have taken advantage of the favors accorded German subjects by placing their property in the hands of German friends upon leaving Mexico.

This information was disclosed by a competent authority in connection with information concerning the activity in Mexican affairs of Captain Franz voi Rintelen, now under indictment in New

York for conspiracy to foment strikes in American munitions plants, and under street in England.

Yon Rintelen is known by the authority mentioned as well as by soyerement officials, to have been most active in Mexican affairs. His activities tegan at the timo Villa and Carranza were at odds, and when Huerta went to the border to direct a plot to gain control of the government. Von Rintelen today was described as having been prompted by three mo-tives in endeavoring to stir up trouble between the United States and Mexico, although primarily his activities were said to have been directed against the entente ailles, and not against the

United States. This information obtained leads of ficials to believe that von Rincald thought that by starting a dispute be tween the United States and Mexico munition shipments from Americ would be stopped, that the Unite States would be too busy to pura-the submarine controversy, and the

Though the lineup looked shaky on Though the lineup looked shary on paper with two men playing out of their regular positions in the infield, the team worked smoothly and showed more life than in recent games which accounts for the easy win. The Lowellites hit the ball when hits meanirums and hammered Donovan, one of Mary Hardels heet twisters for 16 him. New Haven's best twirlers, for 10 bin-

gles.

Greenhalge took Lord's place on third and Outfielder Kane covered second. Both men did very well, Kane knocking down a couple of hard hit balls that looked like sure hits. He made one excusable slipup in the first in hing. Kane also celebrated his return to the game after several days' rest by knocking out three hits.

ARE BATTING VERY POORLY

BAKER, COLLINS, HARRY AND MC INNIS ARE UNDER .264-FAMOUS \$100,000 INFIELD

You may recall, says Grantland Rice, the names of the hardest hitting infield that has played in 20 years—McInnis. Collins, Barry and Baker. Three at least were always good for any spot between 300 and 360. Then they were scattered. Now what's the quaint idea? Have you noticed their hapting marks of 1916? Stuffy McInnis, with the Mackmen, is batting 183.

There is a saying that is supposed to run something like this: "United we stand; divided we fall." That might be revised to read: "United we bat over .360; divided we drop back below .250." For it is a remarkable occurrence, incident or episode that not one of the old Mackian infield is batting .270, two months after the season has opened.

Only one of the quartet is over .250, and the average of the four is down around .225.

Knowing all the quaint and sudden upsets connected with baseball, this turn is the strangest of them all. For there isn't a man in the bunch who isn't taking fine care of himself; there isn't an entry from the lot who isn't hustling his best and drawing down big money for the job.

Yet here is the answer—a combined batting average of .225 for Stuffy Methnis. Frank Baker, Eddie Collins and Jack Barry! And this after two months play. There are still one or two things in the span of this game that lie be-

CATCHER BILLY SULLIVAN OF TYGERS HAS NEVER HAD FINGER BROKEN

big leagues, Billy Sullivan of the Tygers never has had a broken finger or thumb—a record that mighty few hackstops of half his experience can equal. The veteran has handled all sorts of pitching, including the spitchalters, who are the bane of a backstop's life, in about 1200 league games and that he hasn't received a fracture of one of his digits is almost as marvelous as though he had charged a battery of maching guns and escaped without a wound. Foul tips by the thousand have come Bill's way and he has been battered and bruised and bumped all over the place. He has suffered a dislocated thumb or two and has lost a finger nall now and then, but his bones are just as good now as they ever were.

Instead of presenting a right hand that looks as though it had been stepped on by an elephant and repaired by a freshman medical student when he "mitts" you, Bill extends a paw that has no disfigurements to speak of. It doesn't look like the hand of a cetilion leader or anything like that, but nobody would ever know just by glancing at it. that it was being worn by a catcher so old in the game as Sully. Bill attributes his success in evading broken fingers to the fact that he learned early in life to catch the ball properly. Instead of receiving with the tingers extended in the general direction of the pitcher and thus oftering a

The other two veteran catchers, for The other two veteran catchers, formerly employed by Detroit in positions similar to the one. Sullivan now occupies, were the real battle-scarred heroes. McGuire and Joe Sugden, when both were with the squad, used to hold many a friendly argument about who had sustained the largest number of separate and distinct fractures, compound ones counting double. Nobady ever was able to decide the matter, for it would have required too much patience to count up the plainly visible evidences of former breaks.

Each of them has a claw that would be worth a lot of money to the class in anatomy at a medical college. The "hooks" look more like the borny claws of some giant bird than the graspling apparatus of a human being.

BOSTON STRIKE SETTLED

BOSTON, June 23.—An amicable settlement of the strike of more than 5000 building laborers, which has been in progress here in Greater Boston for the past three weeks, was reached at a conference yesterday afterneon. The men will return to work this morning on the terms of the original compromise offer of the Building Employers' association, of 35 cents an hour for escavating and concrete work and 40 cents an hour for mason helpers, thus relieving the tieup in building operations in various parts of the city.

Pretty Betty Anderson does a death-defier when she leaps from an aeroplane defier when she leaps from an aeroplane high in the air, using her parasol as a parachute. By some miracle she makes a quick but safe voyage to carth. Conklin, who kidnaps the girl, courts annihilation by getting mixed up with a propeller. The way he is whirled around by the wings in rapid revolution makes the head dizzy. Then suddenly he is thrown off, and he, too, makes a rapid descent to earth. Dave Anderson does some high tumbling in his plane above the clouds. Conklin has tampered with the wiring and a wing of the aeroplane falls off. These are a few samples of the hairbreadth escapes that these comedians get away with New London strengthened its lead that these comedians get away with. The Hearst-Vitagraph is full of good things. Among them are pictures taken in the streets of Dublin on the day following the surrender of the Slini Peiners. This gives a specially good idea of the tremendous amount of damage wrought. The Eighth and Fifteenth Cavalty regiments, on the march in Mexico, are also shown this week. In addition there are specially fine views taken all over this country. A short picture, "Orphan Joyce," is still another feature of the bill.

MERRIMACK SQUARE THEATRE

Louise His will again be seen at the Merrimack Square theatre today and tomorrow in the leading part of the five act feature, "Destiny's Toy," the gripping play which delighted the many patrons who attended this theatre yesterday. This is a play of strong appeal ending in a grand elimax when the sorrowing father meets his beloved daughter whom he thought was lost at sea. Of a different nature, but equally as interesting, is the other five act feature, "The Hand of Peril," starring House Peters, who appears in the role of the government detective agent who rounds up a gaing of counterfelters. Another feature on the bill of the Merrimack Square theatre for the rest of this week is the monkey picture, "Napoleon the Great and Sally, His Mate." This picture which has monkey actors instead of human beings, affords much merriment to the audience. Be one of the many to see this instalment. The performances for today and tomorrow will conclude with several other good pictures.

AT FIRST TRINITARIAN CHURCE -PUPILS ABLY ASSISTED

A very pleasing vocal recital was given by the pupils of Percy W. Edmunds at the First Trinitarian Congregational church in Dutton street last evening. There was a goodly attendance, and the singers and players were enthusiastically received. The entire recital was of much merit. Assisting the pupils were Miss Kathleen Wright, violinist, Walter Coburn, organist, and Mr. Edmunds at the plane. The singers were very largely the advanced pupils of Mr. Edmunds, although there were among them several who were young but who had shown unusual ability in vocal culture. The program was as follows: evening. There was a goodly attend-

THE LEATHER MARKET

One of the commodities that has been most affected by the war is leather, and in consequence the price of shoes has gone up with every prespect of further increases in the near future. The public does not take kindly to higher prices for such a necessary commodity as shoes, but dealers claim that the condition of the leather market makes it impossible for them to sell at the old figure, except at a loss.

The three main reasons alleged for the advance in the price of leather are the shortage of hides, scarcily of dyestuffs and tanning materials and the increased demand for leather which has sprung up in the past few months. As none of these factors show any fully in one of the factories of the U. signs of change in the nea- future, S. The serious situation in dyestoffs and chemicals has also had its share in boosting the price of leather and shoes. Tanning and dyeing have become far more costly processes, and knowledge of these wonders which in there is little prospect of immediate many respects are unequalled in any improvement. America has in many other part of the world. The departways reaped a rich harvest from the war but there is another side to the picture in which the leather situation must be included. Yet, the price boosting may easily be overdone, and the dealers may discover that the public will wear the cheaper grades European travel cut off it is expected rather than pay the high prices.

LOCAL RED CROSS

By far the greater number of those who so enthusiastically cheered for preparedness recently had no idea of going to the front in case of war, but they all believed in backing up the country by every other means in their power. The coming reorganization of Red Cross work in this city will give many an opportunity to be of service. Many volunteers will be needed to carry, on the various activities, supplies

THE HAGUE, Netherlands, June 23.—
The women of Holland are to be prepared for Instant mobilization in case of war to keep the essential civil life of the nation going, as well as perform such service behind the lines as that of the Red Cross.

Under the scheme now drawn up, the National Women's council of the Netherlands is arranging for inscription offices to be opened all over the country where all the available formale labor forces can be registered and classified

where all the available female labor forces can be registered and classified on the card system. It is to be left to each woman volunteer to say whether she has any objection to transferment from one place to another, while she is entirely free in her choice of the nature of the work. MANY OFFICERS FROM ATLANTIC FLENT ATTEND GRADUATION EXERCISES

NEWPORT, R. I., June 23,-Many officers from the Atlantic fleet and from the Narragansett Bay naval and army stations attended the graduation exercises of the naval war college today. Rear Admiral Austin M. Knight, president of the college, presented diplomas to 17 officers.

In the course of an address on the work of the college, Rear Admiral Knight incidentally touched on preparedness.

Knight incidentally touched on preparedness.

"Much of the sentiment on this subject," he said, "is undoubtedly deep-scated and sincere, but much of it also, I am convinced, is superficial and more or less hysterical. And some of it is distinctly selfish.

"A love of country which needs a supreme crists to bring it to the surface lacks the first element of efficient patriotism. What is needed in this country, and what I think is lacking, is a spirit of devotion ready to respond to every call for service without thought of where the service may or may not lead; and, above all, a spirit, the flame of which shall burn as brightly in peace as in war, and always steadily."

Mr. Dooling sent Detectives Cunifie, Gallagher and Jones to Miss Hill's apartment, only to find that she had vanished. They had a warrant for her arrest, based on the New Jersey indictment. The apartment had been cleared of many of Miss Hill's belongings, for she had packed up on Tuesday. But she left a box which contained a picture of herself and of Frank Humphrey, a tangoist, in evening dress. That picture shows a robust, altractive woman with dark hair and eyes. In the box also were pictures of many prominent men heremen with whom Miss Hill apparently was not acquainted. How the pictures got into the woman's hands was a riddle to the authorities. In Misa Hill's apartment were found several puckages containing a white powder. These packages were taken to the district attorney's office, and will be handed to a chemist, who will analyze them carefully. The substance had a sweet shell, similar to the perfume found on the flowers which Miss Hill sent to Miss Claypool at the freat Northern and similar to the scent of the artificial lilies of the valley that were found in Miss Claypool's room in the Robert Treat hotel. Newark, where she is said to have been kept prisoner for two days.

In the apartment was a negro maid. Frieda Johnson of 202 West 132d st., who said that she had also worked as maid for Miss Claypool in the Great

Northern hotel at the time that Miss Hill was calling upon Miss Claypool. The maid was held as witness and was questioned for some hours last evening by Mr. Dooling and William Dean Embree, another assistant dis-trict attorney.

Other Witnesses Found

Other Wilmesses Found

While search for Miss Hill proved futile, detectives succeeded in finding other witnesses who knew of the fight of Miss Claypool from the Great Northern on June 1 in company with Miss Hill. They found the chauffeur who was hired by a certain man to drive the two women from hotel to hotel and who finally took them to Newark. The name of this man was not disclosed. The driver, who was hired at 1 o'clock on the morning of June 7 to take Miss Hill and Miss Claypool back to New York, was also found. He too has told his story.

Mr. Dooling has learned that while Miss Claypool was away from the Great Northern hotel, and under the influence of drugs at least part of the time, she signed a number of documents. Many of those documents were found either in the Claypool-Hill suite in the Robert Treat hotel or in the hotel safe. Among these was a document that promised to Miss Hill a commission of 10 per cent. of all the money she won in her fight to contest the will of Bockwalter, filed in Ohio and bequeathing only \$100,000 to Miss Claypool. Another document was an agreement retaining Rosenthal as attorney for Miss Claypool and authorizing him ment retaining Rosenthal as attorney for Miss Claypool and authorizing him to carry on the will fight,

\$4,000,000 in Second Will

Mr. Dooling said last night that Rosenthal had told him that there was a second will in existence by the terms of which Miss Claypool was to receive \$4,000,000 from the Bookwalter estato. now valued at from \$12,000,000 to \$15,-

One of the executors under the first will is J. W. Baxter, a cousin of Miss Claypool and son of Mrs. Baxter, residuary legatee, to whom the bulk of the estate was to go. There were found among Miss Hill's effects in the Newark hotel saveral affidavits attacking the personal character of Mr. Baxler and of another man who figures in the first will. One of the affidavits was made by Carl Johnson, or Carl Wadsworth, an actor, who received money from Miss Hill, and who says he made the affidavits as part of his preparation for a suit for slander against Baxter.

Rosenthal was not arrested here yesterday because he called up Assistant duary legates, to whom the bulk of the estate was to go. There were

Hosenthal was not arrested here yes-terday because he called up Assistant Prosecutor Mott in Newark and told him he was ready to appear there any day he was needed.

Mr. Dooling sald last night that he expected to have the case thoroughly sifted within the next few days and be ready to call witnesses before the grand fury in this county.

The newest problem that confronted Mr. Dooling yesterday morning was presented with the information that Miss Margaret Hill of 208 West 54th street, the leading character thus far figuring in the misadventures of Miss Claypool, was missing. She bad been indicted on Wednesday by a grand Jury in Essex county, New Jersey, on a charge of assault, the specific act charged against her being the drugging of Miss Claypool in the Robert Treat hotel in Newark. In the same indictment was the name of Alexander Sidney Rosenthal, lawyer, of 299 Broadway, who like Samuel Sobel, says that he is the attorney for Miss Claypool.

Springfield is rapidly doing away with all its horses and interizing its apparatus and all of its frehouses are being made fireproof, one of the latest houses to be remodelled being that at Westchester square, which has every convenience conceivable.

At the Walnut street station the firemen were put through a drill which consisted of the use of hose on a tower, supposed to represent a high building, the use of cellar nozzles and also the turnet guns on the combination wagons. Scaling ladders and life nets were also brought into use and it was one of the most practical demonstrations that the local chief ever nstrations that the local chief ever wilnessed. LARGELY REGAINED

NEW YORK, June 22.—Latest aspects of the Mexican situation precipitated further heavy selling of the Seneral list at the opening of teday's session. Thousands of shares of U.S. Steel, Reading. Rock Island and Kenecott Copper were offered at the outset, none of these issues, however, deciling more than a substantial fraction. Mexicans, Marine pfd., and some of the more active munitions and some of the more active munitions and metals broke 1 to 2 points. The movement was swollen by extensive out of town liquidation and bearish aggression. Supporting orders relieved the pressure in part before the end of the first hour.

Losses were largely regained later, some leading stocks advancing materially. Union Pacific, Reading, Canadian Pacific and New Haven responded most freely to what seemed like substantial support, the latter gaining 41% almost 2 points. U.S. Steel and mosubstantial support, the latter gaining almost 2 uoints. U. S. Steel and mosubstantial suppliff, the latter gardina, almost 2 points. U. S. COMMISSIONER DONNELLY HAS PROBLEM TO SETTLE AS RESULT OF ROUGH SLIDES

The Chambers street playground has been rechristened "The Donnally playground," and the change in name has received the official O. K. of everybody interested. But, strange as it may seem, the commissioner is not in as good standing as before the play-ground was mentioned and he is not sure now if he will have to do a lot.

PRESIDENT'S CALL FOR MILITIAMEN SHOWS GOOD STATE OF NATIONAL GUARD

President Wilson and Newton D. Baker, the secretary of war, are cuthusiastic, not only over the hearty approval by the governors of the states of the order for mobilization of troops to protect the country against possible Mexican aggression, but also on account of the efficiency and rapidity with which the work is going forward. According to telegraphic advices from the state capitals north, east, south and west, the order was communicated within a few hours of its being received to the regimental and company commanders and through them to the men. Further newspaper publication of the call to the colors brought a majority of the men to the armories eager to begin at once the preparations to move to mobilization points. Nearly all the regiments are short of war strength, but the war department is assured that there will be little difficulty in recruiting them up to their full quota within a few days. No. 1 in the picture shows a national guard field artilleryman cleaning one of the guns, while a comrade inspects his kit; No. 2, national guard infantryman going over his uniform; No. 3, the Twenty-second corps of engineers, New York national guard, on way through New York city to mobilization camp at Beekman, N. Lowell, Mass. June 23, 1916.

To the Mayor and Municipal Council of Lowell, Lowell, Mass.:

By vote of the board of directors of the Lowell board of trade at a meeting on last Tuesday evening, the lineance committee of the board of trade, J. Morae's Water Bill

The next up was that very tiresome affair having to day the mayor.

The next up was that very liresome affair having to do with the payment of the street department's water bill for street sprinkling to the water department. The matter was brought up by Commissioner Putnam, who said that Supt. Thomas of the water department had said that Mr. Morse ought to pay the water department \$3000, but that the water department was willing to call it square for \$1500.

Mr. Morse said he would pay \$1000 and no more, and the mayor thought that \$1000 ought to suffice and that it should street department each year for the water used for street sprinkling. Mr. Morse said he would sign no bill on that basis for this year, "I don't want to pay until I know how much I have used," said Mr. Morse, "and I think you believe I ought not to pay in advance,"

ne continued, addressing the mayor.

"I do think you should pay," said the mayor, "and I am going to vote that yay. You know that we have agreed on that amount. You know that the water department needs all the money that belongs to it at this time, and I think it would be a very gracious thing for you to pay in advance, for really for you to pay in advance, for really I think that is the only proper thing

There was further discussion in which Mr. Morse took the heavy part. He said he had a hill against the water department for \$2700, and that if the water department was going to collect water department was going to collect from him, he allowed he would collect from the water department. It was finally voted that the auditor be in-structed to take \$1000 from the street watering appropriation and place it to the credit of the water department. Adjourned to Tuesday at 10 a.m.

JASON AND THE GOLDEN

FLEECE

When Jason went in search of the Golden Fleece he met with many difficulties. He had to pass the Clashing Islands which just grazed the stern of his ship. He had to yoke his plow to two fire breathing buils, and then had to take the Golden Fleece from a tree which was guarded by a dragon that never slept. With help and patience he accomplished these feats and received his reward which was the king's daughter and a kingdom.

When Chalifoux organized their store they also met many difficulties. FLEECE

when Challed against their store they also met many difficul-ties. They had to secure the best location for their store. They had to secure goods that would please the people of Lowell and please the people of Lowell and sell them at reasonable prices. But like Jason they overcame these difficulties and have a reputation more valuable than Jason's Golden Fleece.

COME HERE TODAY. Tuck a five dollar bill in your pocket before starting. And come with the expectation of beginning right THEN AND THERE to own one of these fine Behr Bros. Pianos.

You will be surprised. We expect you to be. For you will see a piano which in design, in finish, in tone and in action will equal—if not surpass—those of your friends and neighbors which cost three hundred and fifty to four hundred dollars.

We don't care how skeptical you may be. You will see that these instruments are the biggest kind of bargains at the price (\$257), to say nothing of the many other advantages you get in the plan through which they are now being sold.

You will see that these are just the kind of pinnes you have been picturing in your mind for your home. You will see at a glance that these instruments will grace any home. That they will correspond with any modern room, it matters not how heautifully appointed.

In fact, you will be so delighted with them that you will feel irresistibly compelled to select one FOR YOUR VERY OWN.

The Proposition Gone Over Again

In order that YOU will know this whole proposition just as well as WE know it, we will go over it again. First, we are selling seventy-five Behr Bres, pianes, for two hundred and fifty-seven dollars, which, under USUAL METHODS of selling, sell at three bundred and fifty to four hundred dollars each.

Instead of selling them on regular terms of twenty-five dollars down and ten, twelve or fifteen dollars a month, you pay but five dollars down and the remainder at the rate of only one dollar and fifty cents a week-and the piano is sent to your home at once.

A joint guarantee, signed by both Behr Bros & Co. and ourselves, is handed to you IN WRITING, which guarantees the material and workmanship of the piano for five years from the day you make your

You can GET YOUR MONEY BACK at the end of a thirty days' trial of the piano-if you wish. At the end of the first year's use of the piane, should you wish, YOU CAN EXCHANGE IT for any

other new piano we sell of equal or greater value. This gives you sufficient time to fully satisfy yourself that the piano is all you wish it to be.

Foor For Safety Of Prisoners

Grave apprehension was manifested here for the safety of the 17 American prisoners taken in the engagement who are held by Gen. Trevino probably in Chihnahna City. It was feared that should bostilities result, the Mexicans probably would attempt to carry out threats made by subordinate leaders to hang the captors.

Military authorities here felt confident that supplemental reports would be received today giving additional details of the light and news of the two squadrons of the 11th Cavabry who were sent to reinforce the troops of the Tenth.

To Accept Services of Rebels

Reports current in Mexican circles that Gen. Alvaro Obregon, Mextean minister of war, has issued a manifesto offering to accept the sérvices of all rebel leaders in the event of hea-tilities with the United States found some confirmation in the fact that to-day a number of Mexicans who had been exiled for political reasons crossed into Juarez.

On leaving the White House Secretary Baker said that there was no change in the administration policy and that information from Gen. Pershing still was awaited. He also said no new orders to regulars or milltla had gone out.

Tension was not lessened by an official report to the navy department that there was no provocation by Americans for the attack from a beat from the gunboat Annapolis at Mazatian Sunday. Commander Kavanaugh of the Annapolis declared two American officers were selzed by Mexican customs officers and soldiers and that firing on occupants of the beat was started by Mexicans.

The Performance

The opening pageant this year is a Perslan spectacle based upon the tales of the "Thousand and One Nights." Gorgeously bedecked elephants, ridden by men and women in oriental attire, scores of white horses with bespangled riders, and an orienwith bespanged riners, and an oriental band make this scene particularly pleturesque as the carayan passes around the arena.

QUARTER CENTURY AGO

Tomorrow will be St. John's day, the patronal feast of the French of Canada, and the feast will be observed in Lowell on Sunday, an elaborate program having been prepared. Never in the history of the city, perhaps, was St. John's day so generally observed as it was quarter of a century ago, when one of the largest and most magnificent street parades ever held by the French of Lowell, took place as one of the features of the costumes and spectacular features as most magnificent street parades ever held by the French of Lowell, took place as one of the features of the edebration. Owing to the difficulty in getting up a big parade when the feast fell on a working day, it was decided long ago to hold future parades only once in 10 years but this year, the feast falling on Saturday, it was decided to have the observance on Sunday.

decided long ago to hold future parades only once in 10 years but this year, the feast falling on Saturday, it was decided to have the obstrance on Sunday.

The old Sun devoted much space to its report of the St. John's day observance of quarter of a century ago, together with a lengthy editorial on the lessons of the observance. In connection with its report it had the following: "Never perhaps in the history of this city has any particular section of our citizens made a finer display in a street parade than did cur French-Canadian citizens in celebrating St. John's day. The magnificent proportions of the procession were astounding, while the floats representing noteworthy historical events were like the tableaux of a large thealre. Such an array of horsemen in rich regalla and men on foot, all wearing the distinctive insigns of their respective societies, such a variety of features, of fine banners and decorations has rarely been seen on the streets of Lowell on any former occasion, and all this was more surprising because it was unexpected. Very few realized that our French citizens would present such a great pageant. The parade, judging from the numerous features, the costumes and the decorations, must have been an expensive one. Indeed it isn't

costumes and speciacular features as were introduced and the whole celebra-tion was a magnificent success, reflect-ing great credit not only on the of-ficers, but on the entire french peo-

All aides in each division were mounted and cach division also had a number of officers of societies, invited guests and school children in carriages. Nearly all of the larger societies had attractive floats representing allogorical figures and the sixth division concluded with an industrial division in which were represented compositors and newspapermen of L'Etoile in the attitude of work, carpenters at work, and bricklayers, baxers, masons, painters, blacksmiths and carriage-makers with practical illustrations of their respective trades. A splendid float represented Sartier and Christopher Columbus, Another was an allegorical representation of the 40,000 soldiers of the late war. A mintature cottage in line hore the name of Alfred Bibeault. A great number of barges were in line, representing different branches of Canadian commerce and trade.'

History of Medals

For over half a century high school pupils annually have been awarded Carney medals at the close of the term, and the history of the Carney medal is given by the late Charles Cowley, as follows:

"In 1858, Mr. James G. Carney presented \$100 to the city, upon the condition that the interest thereof shall annually be appropriated to the procuring of six silver medals to be distributed for the six best scholars in the high school, forever, three in the girls' department and three in the boys.' The liberal donation was accepted and faith of the city pledged to the just discharge of the trust. Such was the origin of the Carney medals which will continue to be striven for by the pupils of the high school when by the pupils of the high school wher the dust of unnumbered centuries

Officials are greatly worried over the delay in getting news from the surviving officers of the little Tenth Cavalry detachment which engaged a superior force of Mexicans. According to Mexican official accounts there were about 76 Americans, 17 of whom were taken prisoner. Capt. Charles T. Boyd. Lieut. Henry R. Adair, and ten men are said to have been killed. Of the remaining forty-seven only a few stragglers reached Gen. Pershing's headquarters yesterday and today there has been no word from the two cavalry troops sent out to get in touch with the shattered command.

touch with the shattered command.

Gen. Pershing said he hoped to have a report from surviving officers by courier during the day.

Senator Stone, chairman of the foreign relations committee, called at the state department early seeking information about the situation. He was told by Secretary Lansing that there had been no new developments. Mr. Stone said congress would do nothing Stone said congress would do nothing in the crisis that might interfere with negotiations between the state depart-ment and the de facto Mexcan gov-

A friend who is a nurse said for me to try Lydia E. Pinkham's Vegetable Com-pound. I began taking it that very day for I was suffering a great deal. CATCHER BILLY SULLIVAN OF TYCERS HAS NEVER HAD FINGER BROKEN

With something like a score of years of service behind him, most of it in the big leagues, Billy Sullivan of the Tygers never has had a broken finger or thumb—a record that mighty few backstops of haif his experience can equal. The veteran has bandled all sorts of pitching, including the splitballers, who are the bane of a backstop's life, in about 1200 league's games and that he hasn't received a fracture of one of his olgits is almost as marvelous as though he had charged a battery of machine guns and escaped without a wound. Foul fips by the thousand have come lift's way and he has been battered and brulsed and bumped all over the place. He has suffered a dislocated thumb or two and has lost a finger nail now and han, but his bones are just as good now as they ever were. Bonsack went to centre field, taking Barrows' flace in the ninth. Nutrer struck out. J. Shannon hit a grounder to Greenough. Paddy Green covered the bag and dropped the ball. The Mutt and Jeff animated cartoon is a laugh-causer. It is called "In the Movies," and little Jeff is seen posing as a German soldier who, alone and single-handed, captures an entire first-line of French trenches. The Hearst-Vitagraph is full of good things. Among them are pictures taken in the streets of Dublin on the day following the surrender of the Sinn Feiners. In addition there are specially fine yiews taken all over this country. A short picture, "Orphan Joyce," is still another feature of the bill.

One of the commodities that has been most affected by the war is leather, and in consequence the price of shoes has gone up with every prosnect of further increases in the near kindly to higher prices for such a necessary commodity as shoes, but dealers claim that the condition of the leather market makes it impossible for them to sell at the old figure, except at a loss.

The three main reasons alleged for he advance in the price of leather are the shortage of hides, scarcity of dyestuffs and tanning materials and the increased demand for leather which has sprung up in the past few months. high level for some time to comeeven after the close of the war.

LOCAL RED CROSS

By far the greater number of those who so enthusiastically cheered for preparedness recently had no idea of going to the front in case of war, but they all believed in backing up the country by every other means in their power. The coming reorganization of Red Cross work in this city will give many an opportunity to be of service. Many volunteers will be needed to carry on the various activities, supplies

Under the scheme now drawn up, the National Women's council of the Netherlands is arranging for inscription offices to be opened all over the country, where all the available female labor forces can be registered and classified on the card system. It is to be left to cach woman volunteer to say whether she would desire a salary or not, and whether she has any objection to transferment from one place to another, while she is entirely free in her choice of the nature of the work. As, however, there is likely to be a superahunover, there is likely to be a superahunover, the volunteer can register a second and even a third selection. No ware paid is to be less than that carned by the man replaced; on the other hand, the woman so employed may in no case claim the place when the emergency is past.

The plan has the entire approval of

past. The plan has the entire approval of ministers and the commander-in-chief of land and sea forces, and the post-office, rallway and other authorities have promised their co-operation in fixing the amount and kinds of labor that would be needed in the event of mobilization. The preparatory work of the women's regimentation is already in full swing in various centres of the country.

MISSING OVER 30 YEARS

EDGEWOOD, CAL-INFORMED TO RETURN TO SHARE \$39,000 ESTATE

WASHINGTON, June 23.—John Fallon, brother of Michael Fallon of Becket, who has been missing for over 30 years and has been declared legally dead, has been found alive and well at Edgewood, Cal.

In a letter to Congressman Tread-way last May, Michael Fallen sald his brother had disappeared in March, 1886 Although the ramily believed him dead, Although the family believed him dead, they were making a final attempt to get some trace of him in order that he might share in the distribution of a \$30,000 estate left by his aunt. Michael Fallon reported to Mr. Treadway that he had heard his brother lived in Arizona for a time, and later went to Rocklin, Cal., where trace of him had been lost.

With this single clue Congressman Treadway went to work to find the missing man. Correspondence with the postmaster at Rocklin brought word of a man "who knew a man, who knew a man that thought he knew John Fallon."

A SIMPLE SAFE, RELIABLE WAY People who are over-hurdened with perfluous fat, know only too well the scomfort and ridicule that over-stout

superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or en pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from A. W. Dows & Co. or any good druggist a box of oll of korein capsules; take one after each meal and one before retiring at night. Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even ship a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight, footsteps become lighter, your work seems caster and a lighter and more buoyant feeling takes possession of your whole being.

Left Pleture of Hersett Behind

Mr. Dooling sent Detectives Cuniffe, Galtgher and Jones to Miss Hill's apartment, only to find that she had vanished. They had a warrant for her arrest, based on the New Jersey indictment. The apartment had been cleared of many of Miss Hill's belongings, for she had packed up on Tuesday. But she left a box which contained a picture of herself and of Frank Humphrey, a tangoist, in evening dress. That picture shows a robust, attractive woman with dark hair and eyes. In the box also were pictures of many prominent men heremen with whom Miss Hill apparently was not acquainted. How the pictures got into the woman's hands was a riddle to the authorities.

In Miss Hill's apartment were found several packages containing a white powder. These packages were taken to the district attorney's olice and the proced worth that keeps the entire lender, system perfectly regulated and in excellent condition.

Other Witnesses Found

White search for Miss Hill proved futile, detectives succeeded in finding other witnesses who knew of the flight of Miss Claypool from the Great Northern on June 1 in company with Miss Hill. They found the chaufteur who was hired by a certain man to drive the two women from hotel to hotel and who finally took them to Newark. The name of this man was not disclosed. The driver, who was hired at 1 o'clock on the morning of June 7 to take Miss Hill and Miss Claypool back to New York, was also found. He too has told his story.

Mr. Dooling has learned that while Miss Claypool was away from the Great Northern hotel, and under the influence of drugs at least part of the time, she signed a number of documents. Many of those documents were found either in the Claypool-Hill suite in the Robert Treat hotel or in the hotel safe. Among these was a document that promised to Miss Hill a conimission of 10 per cent. of all the moncy she won in her fight to contest the will of Bookwaller, filed in Ohio and bequeathing only \$100,000 to Miss Claypool. Another document was an agreement retaining Rosenthal as attorney for Miss Claypool and authorizing him ment retaining Rosenthal as attorney for Miss Claypool and authorizing him to carry on the will fight.

TOLD TO WAIT AMERICANS AS-SUME AGGRESSIVE

WASHINGTON. June WAFHINGTON, June 23.—Eliseo Arttdondo, Mexican ambassador, designate today personally informed diplomatic representatives of South and Central American republics that the Carranza troops in the state of Chihuahua were under orders not to attack American troops unless the Americans assumed the aggressive.

Mr. Artedondo stated that he acted on instructions from his foreign office. When asked whether the warning of Gen. Trevino, the Carranza; commander in Chihuahua, that he would attack any American force moving east,

tack any American force moving east, west or south, had been rescinded, he said his instructions made no mention

said his instructions made he mention of that matter.

It was suggested in some quarters that the discrepancy between the Arredondo version of the orders and Gen. OPENING—BREAK IN TENNESSEE

COPPER—GLOSING STRONG

NEW YORK, June 23.—Speculative sentiment indicated further confusion at the opening of teday's market, though gains far exceeded losses. Tennessee Copper, whose directors yesterday ordered a suspension of dividends, made an abrupt decline of 5½ to 36. Texas Co. lost almost 2 points, and Marine pdd. and Missouri Pacific were down a point each. There were large individual transactions in U. S. steel at a nominal advance and Mexican petroleum, industrial alcohol and Crucible steel and some of the metals showed slight improvement. Reading, Rock Island and Union Pacific were among the firm rails.
Encouraged by the break in Tennessee copper, the short interest began a series of attacks upon other vulnerable issues. Industrial alcohol fell precipitately, adding 5 points to yesterday's loss of seven, and other specialties, including some of the prominent munitions, motors and respectately's loss of seven, and other specialties, including some of the yesterday's loss of seven, and other specialties, including some of the garn a series of attacks upon other vulnerable issues. REPORT FROM PERSHING GENERAL TREVINO TALKS

An alarm from box 35 at 6.31 o'clock this morning summoned a portion of the fire department to a dangerous blaze in the Howard Street garage. The fire damaged a machine belonging to the Ward Baking Co. of Boston, but how the fire started is a mystery. The fact that the machine was near the door and was pushed into the street before the flames spread may have prevented a more serious one.

The loss of life on the steamer Mercury which was sunk by a mine in the Black sea, undoubtedly has been large, from late reports received in regard to the disaster.

The Mercury was traveling from Odessa to Kherson with 800 passengers, including a large number of college students who were bound for their homes for the summer vacation. The vessel struck the mine 13 miles from Odessa and two miles off shore, in a rough sea. The bow was blown off and the ship and sank in five minutes. Only two lifeboats were launched and health and miles down stream. Both the tide and stiff northwest breeze was at the

Desirable Building Lot at Auction TOMORROW, JUNE 24, 1916, AT 3 P. M.

I will sell at public auction a very desirable building lot of land situated at the corner of Rogers street and Berkeley avenue, containing \$730 square feet, more or less, with a frontage of about 100 feet on Rogers street and 150 feet on Berkeley avenue.

This lot is high and a corner lot and ought to appeal to any person desiring a building site, as there is not a more rapidly growing section in Lowell. The car line passes the lot, and it is large enough for two building lots. Come and look it over.

Terms of sale—\$100 must be paid to the auctioneer at time of sale. Other terms at sale.
